

I would like to comment on K-LOVE radio.. They are an important part of our local community as they announce non-profit functions over the air to our residents notifying them of upcoming events that further strengthen the family and individuals.... I am confident that the effectiveness of this community member K-LOVE would be lessened by the LPFM proposed expansion. I feel that with the quality of Music, great programming and positive information and help they provide that it is key to keep them as they are.

Thank you!!!
